## NEW REPUBLIC RECOGNIZED BIG CONSTRUCTION WORK FOR CAVALRY

### Portugal's New Status Assured

World Powers Unite In Friendly Note To Newly-Formed Republican Government

(Associated Press Cable.)  
LISBON, Portugal, Oct. 6.—The Republic of Portugal is today an established fact. With the selection of a President and formal recognition from the great nations of the world, the republic is in full operation. The house of Braganza, the ancient monarchy, with all of its traditional institutions, is at an end. The "divine right of kings" has been replaced by "liberty and equality."  
Joaquim Theophile Braga, poet, economist and politician, recognized as one of the ablest men in Portugal, is the first President of the new republic. His selection today follows his temporary appointment earlier.  
Today a note, identical in wording, was received from all of the world powers, announcing their recognition of the Republic of Portugal and guaranteeing its security in the family of nations. This quick action has given the revolutionists even more confidence.  
The royal family, about which to many conflicting reports have been issued, is now believed to be on its way to England. King Manuel and the queen mother are both safe on board a warship, it is stated.

**SPANISH TROOPS AT VALENCIA EXCITED**  
(Associated Press Cable.)  
VALENCIA, Spain, Oct. 6.—Considerable uneasiness is manifested by the troops under arms here, and the officers are in communication with the authorities at Madrid, fearing a revolt.  
**NO VIOLENCE IS FEARED BY ENGLISH**  
(Associated Press Cable.)  
LISBON, Portugal, Oct. 6.—The British minister here has cabled to the London that he has no fears of further violence. The town is quiet, the authorities at Madrid, fearing a revolt, and the revolutionists have it well guarded.

### HARRIMAN INTERESTS NOT TO BE CONSIDERED IN PACT OF T. K. K.-WESTERN PACIFIC

Reports that the Harriman interests are in control of the Western Pacific Railroad, and that this would prevent any chance of a rate war between the Pacific Mail Steamship Company and the Toyo Kisen Kaisha, the Japanese line, are said to be false by United States Senator Charles J. Hughes, of Colorado, who is a visitor in Honolulu. Mr. Hughes is personally acquainted with several of the men who figure prominently in the affairs of the Western Pacific as well as the Harriman line, and he is confident that the Harriman interests are not to be considered.

### DIVIDEND OF HONOKAA ENDS

Crop Shortage Cause of the Anticipated Action.  
Honokaa's monthly dividend has been suspended. This action was taken at a meeting of the board of directors held yesterday afternoon. The action has been anticipated on account of the shortage of the crop.  
Honokaa was estimated to produce ten thousand tons of sugar this season. It will turn out seven thousand five hundred tons, making a shortage of about twenty-five hundred tons. This with the price of sugar at present, cut the income of the property about one hundred thousand dollars. Hence the action of the directors.  
The physical condition of Honokaa plantation and the prospects for the next crop were never better. Those who know declare that next year's crop will be the largest ever taken from the property, and the future is reasonably certain on account of the water supply that will be beyond the power of a drought to check.  
Many rumors are about the street regarding a change in the management of the plantation, but there is no vacancy and the directors have taken no action on this matter.

### COMMITTEE IS READY TO WORK

Clark, Wodehouse and Campbell Will Confer With Inter-Island.  
The special committee that will undertake negotiations with the Inter-Island Steam Navigation Company as a result of the conference that was held yesterday, in the Governor's office, consists of Dr. Clark, Marston Campbell and E. H. Wodehouse. This committee will be charged with the special duty of attempting to secure special privileges and rates for homebounders and the other islands who ship their products to Honolulu to be shipped of through the central marketing depot that has been proposed.  
The committee will begin its work at once, and it is believed that it will be able to make a general report within the course of a short time.  
Up till now today there had been 293 automobiles registered at the police station, and the six hundred mark should be passed very soon. 72 motorcycles are also down on the list of gasoline machines, and there are more to come soon.

### MASSACHUSETTS SPRECKELS ASKS FIVE LIVES LOST IN FOREST FIRE

Proposition That Block Be Bought and Mahu'a Given Up.  
GOVERNOR REFUSES TO BE SPONSOR FOR PLAN  
(Special Bulletin Cable.)  
WINNIPEG, Man., Oct. 6.—Forest fires raging in the province and along the American border have destroyed the towns of Williams, Pitt, Gracetown, and Cedar Spring, Minn. Five lives have been lost in the raging flames, and the foresters and special forces so far are unable to check the advance of the fires in the timber.

### MANCHESTER LABOR TROUBLES SETTLED

(Associated Press Cable.)  
MANCHESTER, Eng., Oct. 6.—The labor troubles in the cotton mills here have been settled and the mills opened today after a period of idleness. Both the employers and the strikers claim a victory.

### NEW YORK PUTS SUGAR TO 4 CENTS

Market Strengthens On Receipt of Good News From East.  
Sugar sold at four cents in New York yesterday, the information being conveyed in a cablegram from Ed. Pollitz to the Henry Waterhouse Trust Company.  
This news, good as it is, did not have the result of strengthening the market, though for the time being Hawaiian Commercial seems to have been checked in its downward course. Sales of this stock were made in San Francisco as low as 32.50 but it has rebounded on buying orders from Honolulu and yesterday a cable offer to San Francisco of 35.50 for two hundred shares found no stock for sale.  
Valencia sold yesterday afternoon at 41.50 and Pioneer went down to 21.50.  
The latest quotation on Onomea is 42, a drop from 49.

### Kuhio's Record Before Congress

Delegate Stood For Progress Of People Always  
Delegate Kuhio has secured in federal appropriations for Hawaii during his three terms in Congress a total of \$15,528,000, according to figures just prepared and issued by the Republican Territorial Bureau of Publicity. These figures are sufficient answer to the assertions of Link McConna that the Delegate has not secured adequate appropriations from the Federal Government and that he has not conscientiously represented this Territory. The results of his three years' efforts at Washington are tabulated below:
